

KABELSCHLEPP

**Cable carriers
for modern offices**

FAST, EASY AND COST-EFFICIENT **CABLE CARRIERS FOR THE FURNITURE INDUSTRY**

TSUBAKI KABELSCHLEPP offers a wide range of standards and develops customer-specific solutions with cable carriers for the furniture industry. Our decades of experience from hundreds of successfully implemented projects across different industries produce new, customized and user-specific solutions time and again. Our experts support you from the initial idea to planning and installation in your project.

2

Individual complete solutions **From planning to the preassembled system**

Make use of our know-how. On request, we develop, test and produce the desired cable routing according to your requirements. Everything from structure, connection options and strain relief to packaging can be defined under one customer-specific material number, making ordering easier for you. Preassembly and collating of orders allow you to save costs and additionally reduce the required storage space.

Ready-to-install solutions

- » Purchasing and handling under one material number, sold as original equipment and as accessories for retrofitting
- » No picking of individual parts and simplified logistics through standard packaging
- » Kits including fixing elements and assembly instructions for on-site installation (saves assembly time at the customer site)

MONO SERIES FOR MEDIA BOARDS AND DISPLAYS

- » Easy and quick assembly
- » Many types available immediately ex-stock world wide
- » Cost-effective, durable cable carrier

Inner heights

10 – 15 mm

Inner widths

6 – 40 mm

Pitch

13 – 20 mm

Bend radii

18 – 50 mm

PROTUM® OFFICE P0240 GS

READY-TO-INSTALL FOR OFFICE WORKSTATIONS

- » Easy filling by pressing in the cables
- » Cable routing outside of the foot space
- » Complete separation of data and power cables possible

Inner height

10 mm

Inner width

50 mm

Pitch

24 mm

Color combinations

The color variants silver-gray, black and white for the band, the side parts and the connections can be combined

Combination options for end connectors

Can be attached to table frames, underneath table tops or cable ducts, to rectangular or round table legs or to the floor.

Connection A/B – angled/oval for table top
for mounting underneath the table top or on the cable duct

7

Connection G –
for floor connection
for a clean transition to the floor covering

Connection C/E – for flat frames and
Connection D/F – for round frames
for mounting on the table frame (rectangular/ $\varnothing = 70$ mm) using
integrated magnets **E F**, screws **C D** or cable ties **C D**

PROTUM® OFFICE P0400 GS

FOR EVEN MORE CABLES AT STANDARD AND SIT/ STAND WORKSTATIONS

- » Large usable space for cable installation
- » Cable routing outside of the foot space
- » Complete separation of data and power cables possible

Inner height
21.5 mm

Inner width
50 mm

Pitch
40 mm

EasyTrax® series

FAST INSTALLATION AND COST SAVINGS

- » Extremely fast cable laying as cables are simply pressed in
- » Very high fill level due to the lamella pivoting to the side – lamella do not pivot into the cable space
- » Extremely low noise due to integrated noise damping

Inner heights

4.6 – 25.5 mm

Inner widths

7 – 78 mm

Pitch

11.5 – 45.5 mm

Bend radii

10 – 200 mm
